The Volvo XC70 range at a glance.

ES

The ES interior boasts electronic climate control, passenger airbag cut-off switch and aluminium trim. Then there's the 6 speaker performance audio system with 80W output and features such as cruise control and DSTC (Dynamic Stability Traction Control). On the outside, 16" Cecino alloy wheels, roof rails and tough XC body cladding and mouldings make sure your presence doesn't go unnoticed, on or off road.

SE

The SE aims to spoil. Its luxurious interior boasts supportive leather-faced seats, an 8 speaker high performance audio system with 160W output, automatic rain sensor, Bluetooth® handsfree system and rear park assist. On the outside, 17" Sargas alloy wheels, roof rails and a power operated tailgate complete the SE package.

SE LUX

The SE Lux model is the ultimate word in luxury, with power driver seat and power folding rear headrests further enhancing the interior. Integrated satellite navigation system, active bending xenon lights, headlight cleaning and rear park assist offer both style and protection.

DRIVE

The DRIVE badge is given to cars in the Volvo range that have the best environmental performance. This model is equipped with a conventional diesel engine and manual gearbox optimised for extra-low fuel consumption as well as being tailored specifically for low rolling resistance and reduced air drag. With CO₂ at just 154 g/km and fuel consumption of up to 47.9 mpg on a combined cycle, this makes the DRIVE an attractive choice without compromising on driving pleasure. (DRIVE is not currently available as a geartronic.)
